

AEG Prof High Bay 200W

AEG Prof High Bay 200W series is characterized with high quality and high luminous efficacy, upto 130 lm/W. It is used in areas requiring high light output, such as warehouses, factories, stadiums and is available with different options of beam angles and installation methods.

General Features

LED Chip	SMD
Mounting	Hook / Ring / Bar
Lifespan	50,000 hr
Guarantee	5 Years

Electrical Characteristics

Power	200W
Voltage	AC 90-305V
Frequency	50/60 Hz
Power Factor	>0.95

Photometric Characteristics

Luminous Flux	26,000 lm
Efficacy	130 lm/W
Color	Cool/ Neutral/ Warm
CRI	>80
Beam Angle	60°/90°/120°

Physical Characteristics

Diameter	355 mm (According to 60° reflector)
Length	398 mm (According to 60° reflector)
Material	Aluminum + Toughened Glass
Operating Temperature	-40°C → +50°C
IP	65
IK	08

Dimensional Drawing
